Software Development Projects

Dates: 23 April 2018 - currently

Project's Name: Cartella Sociale IFEL

Technologies Used: Java 1.6 - Hibernate - Dojo Ajax Toolkit - MySQL - Wavemaker 1.5

My tasks in the Project: UI/UX interaction, coding Javascript based pages, writing DAO classes. Created main web app starting with requirements gathering, designing, developing, refactoring, and code implementation.

Dates: 9 April 2018 - 20 April 2018

Project's Name: IFEL - Istituto per la finanza e l'economia locale della Campania

Technologies Used: Java 1.8 - Liferay 6.2 - Bonita - JQuery - MySQL - Bootstrap

My tasks in the Project: Created the base Software Architecture between Portlet Actions and JSP pages to work with JSON format for bootstrapping the member's team.

Dates: 01 September 2016 – 6 April 2018

Project's Name: MIR-PSR

Technologies Used: PL/sql - Java

My tasks in the Project: Created PL/SQL procedure and Java Batch, developer Jasper Reports

Dates: 15 March 2016 - 01 September 2016

Project's Name: IDEA

Technologies Used: J2EE, Spring-MVC, Quartz, HIBERNATE, Jboss 5.1, ORACLE 11G, MySQL, MAVEN, SVN, ENTERPRISE ARCHITECT, JQuery, Bootstrap, Bonita, Oracle, Javascript, HTML, SOAP, Eclipse

My tasks in the Project: Developer Spring MVC actions, JSP and Javascript code.

Dates: 01 February 2016 - 14 March 2016

Project's Name: CDP – Contratto di Programma

Technologies Used: JSON, REST, Spring, Maven, UML

My tasks in the Project: Created high level definition of REST services and implemented the template project for the developers.

Dates: 01 May 2015 – January 2016

Project's Name: SIST

Technologies Used: Java 5, Oracle 10g, JBoss, Tomcat

My tasks in the Project: Created JSP pages, DAO classes and Struts Actions.

Dates: 01 September 2013 - 30 April 2014

Project's Name: MLV (Marine Logistic View):

Technologies Used: WaveMaker, Ajax, Dojo Toolkit, Hibernate, Spring, MySQL, JSON RPC

My tasks in the Project: Full stack application developer from the frontend to backend, coded DAO logic, frontend logic, wrtited requirement analysis and deployed the final application. Created main web app starting with requirements gathering, designing, developing, refactoring, and code implementation.

Dates: 01 August 2013 – 30 November 2013

Project's Name: Resettami Veneto ULSS10

Technologies Used: WaveMaker, Ajax, Dojo Toolkit, Hibernate, Spring, MySQL,JSON RPC

My tasks in the Project: Full stack application developer from the frontend to backend, coded DAO logic, frontend logic, wrtited requirement analysis and deployed the final application. Created main web app starting with requirements gathering, designing, developing, refactoring, and code implementation

Dates: 01 February 2012 – May 2015

Project's Name: Resettami

Technologies Used: WaveMaker, Ajax, Dojo Toolkit, Hibernate, Spring, MySQL,JSON RPC

My tasks in the Project: Full stack application developer from the frontend to backend, coded DAO logic, frontend logic, wrtited requirement analysis and deployed the final application. Created main web app starting with requirements gathering, designing, developing, refactoring, and code implementation. Implemented the redesigned user dashboard with better UX and performance using JavaScript

Dates: 29 March 2011 – 31 January 2012

Project's Name: Sempre - ENEL

Technologies Used: WebLogic, JAX-WS, J2EE, Java,Struts 1

My tasks in the Project: Developed JAX-WS web services and some Struts Actions

Dates: 01 May 2010 - March 2011

Project's Name: Freelance Software Developer for Topcoder

Technologies Used: Apache CXF rest based WS, Tomcat, Maven, Spring, Java 1.6, JSF 2.0, Spring, Hibernate, WebSphere

My tasks in the Project: Freelance Developer on various project.
(<https://www.topcoder.com/members/Cagi/>)

Dates: January 2009 - January 2010

Project's Name: Software Architect for Topcoder

Technologies Used: Java,J2EE

My tasks in the Project: Created various software architecture documentation for some clients of TopCoder.

Dates: February 2009 - April 2009

Project's Name: Ospedale Treviso - Telemedicine Portal

Technologies Used: Web Services, Java

My tasks in the Project: Developer Java 6 based Web Services.

Dates: December 2008 - March 2009

Project's Name: ASL Firenze - Telmed

Technologies Used: Java, EJB 2, Struts 1, JBoss, Axis 1 (Web Services), SSL

My tasks in the Project: Assembled the application and developed the web service client.

Dates: August 2008 -November 2008

Project's Name: Ospedale Treviso - Network Neonatale (Infections Records)

Technologies Used: Java,Tomcat,Flex

My tasks in the Project: Coder of the main application

Dates: March 2008 - August 2008

Project's Name: JSignal, Neocare 3.0

Technologies Used: Java for JSignal; Flex, Spring, Hibernate, EJB 3, JBoss for Neocare 3

My tasks in the Project: Coder of the main application

Dates: 01 May 2007 - 28 February 2008

Project's Name: Global Family Office

Technologies Used: web framework : Stripes, database framework : Hibernate

My tasks in the Project: Customer profiling for this system by developing action with the Stripes web framework and jsp pages with Stripes tags, construction and querying Oracle database through Hibernate. Coded a Multi-thread Java Application for the for the updates of the DB tables.

Dates: 01 May 2007 - 28 February 2008

Project's Name: Dispensa Culina Logistic

Technologies Used: Java 5, Hibernate,SQL Server 2005, Freemarker

My tasks in the Project: Re-engineering of the main client's database, created BPM process with proprietary framework. Coded Hibernate based DAO and HQL based queries. Developed the parser of the client's files in order to be loaded in the matching DB's tables.

Dates: 01 May 2007 - 28 February 2008

Project's Name: Vegagest SGR

Technologies Used: Java 5, Hibernate, Oracle 10g

My tasks in the Project: Created BPM process with proprietary framework. Coded Hibernate based DAO and HQL based queries.

Dates: 01 maggio 2007 - 27 febbraio 2008

Project's Name: Bocconi University

Technologies Used: Java 5, Hibernate, Struts

My tasks in the Project: Coder of the client's main application

Dates: 01 maggio 2007 - 28 febbraio 2008

Project's Name: Sisal - Receivers Portal

Technologies Used: J2EE, Oracle 10g

My tasks in the Project: Maintenance of the client's main application.

Dates: 01 march 2007 - 30 april 2007

Project's Name: SGMG, Sistema Gestione Misura Gas

Technologies and methodologies Used: Java Server Faces, Java 5, Session EJB, JUnit, Jboss, agile methodologies (Scrum, Xtreme Programming, CI, unit test).

My tasks in the Project: Analysis and coding of Java Server Faces based application.

Dates: October 2007 - February 2008

Project's Name: Banche Popolari Unite (X-Five)

Technologies Used: J2EE, Jboss, SOAP ,Oracle 10g ,DB2

My tasks in the Project: Developed JSP old style pages, Servlet actions and DAO layers.

Dates: May 2006 - October 2007

Project's Name: FASTWEB client

Technologies Used: JMS, Windows XP (con UNIX remote systems), ANT, Socket, XML, XSLT

My tasks in the Project: Developed various Java classes and XSLT files for data transformation.

Dates: 01 August 2006 - 28 February 2008

Project's Name: Freelance Software Developer for Topcoder

Technologies Used: Hibernate, Dojo(Ajax Framework), Design Pattern

My tasks in the Project: Freelance developer on various software projects.

Dates: September 2005 - April 2006

Project's Name: Web Application for Entertainment

Technologies Used: Servlet - WML

My tasks in the Project: Developed Servlet classes with the responsibility of the deploy of the WARs
